UNFOLDING CHAOS ...

What is all the craziness about?

- The world is **global** and **change** is **exponential**;
changing month to month (e.g. medical industry).
- whole industries have been created in the last few decades ... and, many have disappeared!

UNFOLDING CHAOS ...

What is driving this chaos?

→ unprecedented access to capital,
computational power and information

UNFOLDING CHAOS ...

How does this actually work?

- developing technologies are **converging** at an exponential rate
- the convergence of technologies **disrupts** every single industry — all will be “unrecognisable” one decade from now.

THE CONSEQUENCES ...

The world is radically different to what it was even one generation ago!

There are two distinct factors at play ...

No. 1: **DISRUPTION** ...

Disruption has become the “new Normal”

- the rate of experimentation and value creation is exploding
- the day before something is truly a breakthrough, it's a “crazy idea”

No. 2: **COMPLEXITY**...

We deal daily with growing complexity

- ✓ A realistic timeframe for a reliable strategic forecast is 150 days maximum.
- ✓ Impossible to see all factors impacting on our world
- ✓ Nor the radical disruptors ahead!

No. 2: **COMPLEXITY**...

We deal daily with growing complexity

Nobody is clever or strong enough to deal with this!

THE OPTIONS ...

1. Carry on regardless ... until you fail ... soon!
2. Confusion, overwhelm, fear, debilitated ...
3. Embrace the Chaos and find God's way forward together.

EMBRACING CHAOS ...

START TO THINK DIFFERENTLY ABOUT EVERYTHING, NOW!

To deal effectively with this disruption & complexity
we must

- ✓ not default to outdated thinking/solutions
- ✓ **learn** to become ultra agile

EMBRACING CHAOS ...

START TO THINK DIFFERENTLY ABOUT *EVERYTHING*, NOW!

... above all else, please get this

“Life is a Team Sport”!

→ The only way to deal with the craziness is an empowered Team, each contributing their range of skills and perspectives in a positive, constructive way for the greater benefit of all.

i.e. GOD'S WAY

but, how do we make this really practical?

Here's how ...

Lenses:

We “**perceive**” absolutely everything through the “lenses” that we have developed/inherited throughout our life (nature & nurture).

Our Lenses:

- ✓ *Our worldview*
- ✓ *Culture*
- ✓ *Beliefs*
- ✓ *Values*

Own the Optimal You

CliftonStrengths:

A practical tool to know clearly

- ✓ Who I am
- ✓ Who I am not
- ✓ How do I use this knowledge to **optimize** all relationships, and how I do everything, for **Optimal Life**?

The bottom line:

This has to align fully with

- ✓ *what God says about me, and ...*
- ✓ *His kingdom purposes*

The journey:

A journey of discovery, resulting in steady transformation of how we

- ✓ perceive everything & everyone
- ✓ think – down to DNA level change
- ✓ relate to all others
- ✓ do everything

The key to Success:

It is all about *transforming* how we perceive.

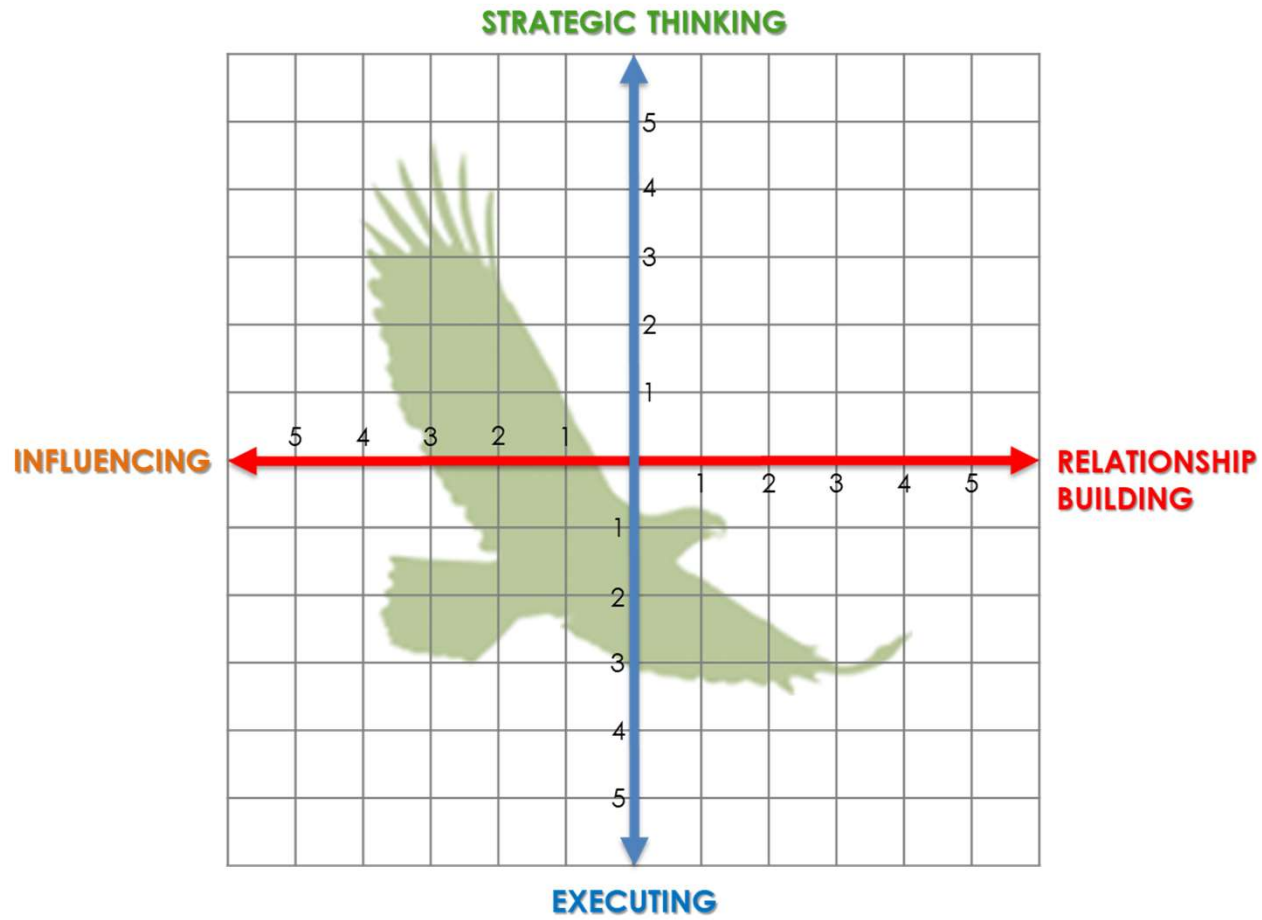

... and then, how to live from there authentically and passionately.

... as part of His “Kingdom Team”.

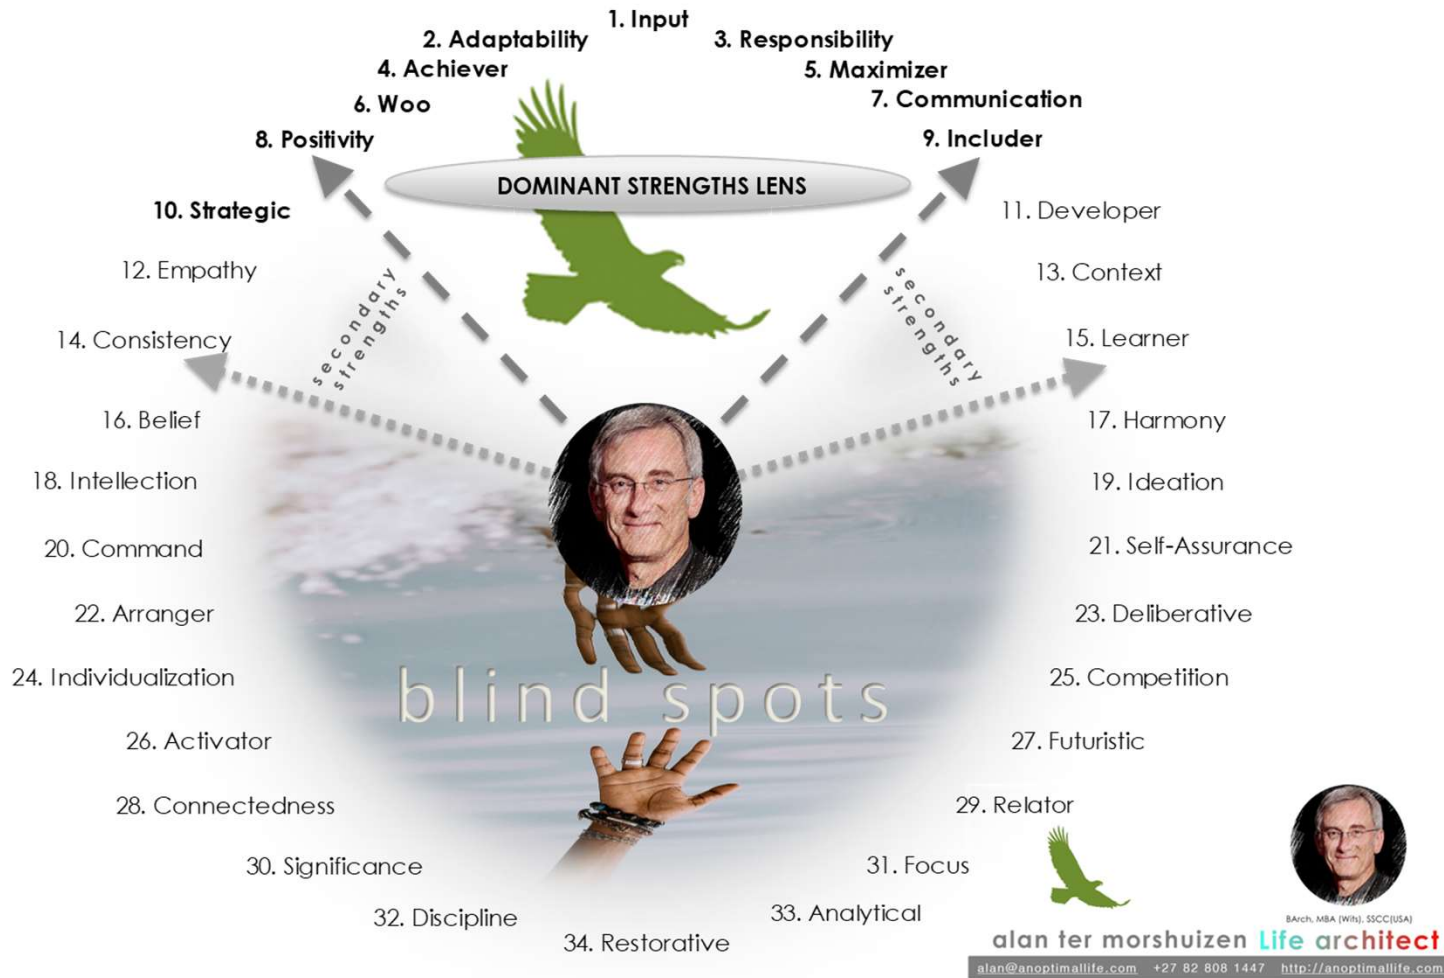

Let's do this ... together!

THANK YOU.

Own the Optimal You

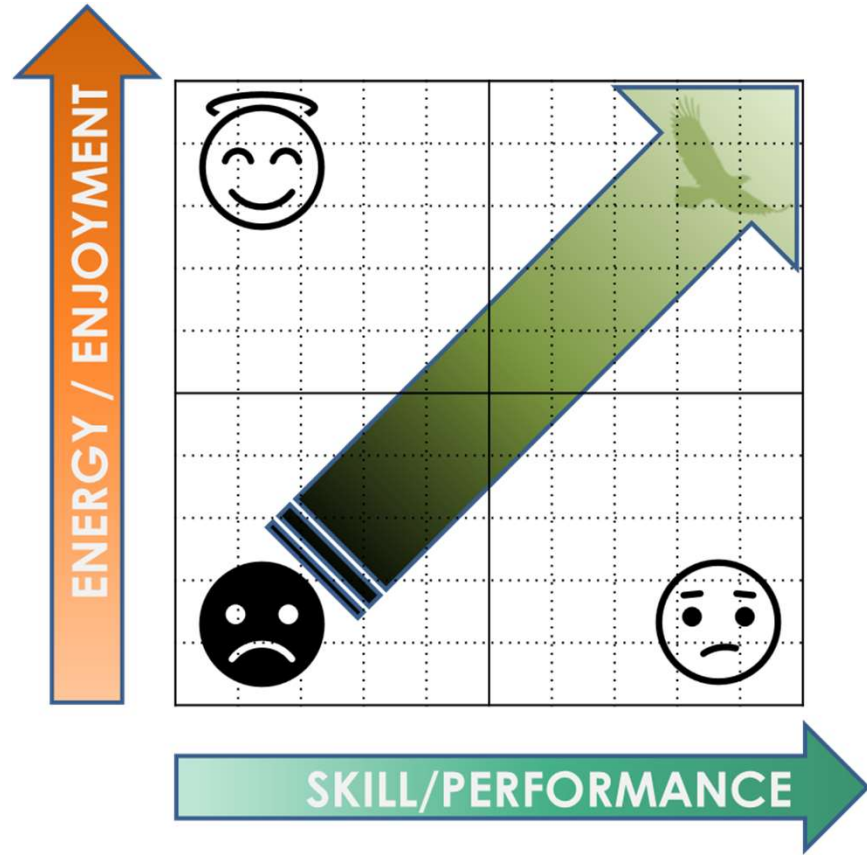

CLIFTONSTRENGTHS 360° LENS FOR: alan ter morshuizen

SELF IMPROVEMENT ...

A \$44bn / R750bn industry that mostly fails to deliver ... because it ignores the following:

- ✓ God's purposes
- ✓ Our unique gifting for that
- ✓ Living off passion alone is not sustainable
- ✓ Trying harder at the wrong thing is stupid

A TRULY SUCCESSFUL LIFE ...

Consistently being fully who we are
absolutely uniquely created to be ...

in relationship with God
and with all people...

to fully fulfil our role on God's Team

... in God's purposes.

Passion linked to Purpose,
based on our genuine
core Strengths

→ a very powerful,
enjoyable and viable
way of Life!
